EDITORIAL NOTE

Journal of Medical and Surgical Pathology is an open access journal that provides everybody with a forum to scan articles while not paying any charge. JMSP's main purpose is to produce current and latest updates on in progress and approaching new analysis works within the field of medicines and pathology. JMSP focuses totally on macroscopical and microscopic anatomy examinations, further as biopsies. The most highlighted areas of this journal are surgical pathology, cancer pathology, medical specialty, digital pathology, medical pathology, etc. It additionally organizes some conference to form individuals responsive to what's occurring within the current situation.

I am glad to announce that in 2019-20 all the papers submitted inside our journal area unit got revealed on-line inside the required timeline in volume 4 and 5. JMSP has supplementary many new members of the editorial board this year that are extremely qualified and gifted in their various sector. They forever guide in their work and provides best recommendation if any downside arises throughout article process stages.

Last year's impact issue of JMSP was average however in 2021 their page read was increased in March month. JMSP submitted a total of 12 papers, with half of them being accepted during the preliminary screening and the remaining papers being dismissed due to high levels of plagiarism or errors in last year's data. The articles published are of fantastic quality along with high-resolution photos encourage scanners to read them. We tend to post the foremost recent updates on their Twitter account to stay individuals aware regarding what is going on within the field of pathology and surgery, which is displayed on the journal's home page.

As an editor, I'm terribly glad to be the part of this fabulous journal and thanks for giving me this chance to jot down one thing regarding this journal. I'd additionally prefer to categorical my feeling to all or any the writers, reviewers, the publisher, the JMSP informative and editorial board, the workplace bearers and IPA secretariat employees for his or her facilitate in transferral out one more volume of JMSP and appearance forward to their unwavering support in transferral out the JMSP Volume 6.

Regarding the steps of processing of an article, they go through a peer review process. The articles submitted are first subjected to a 21-day peer review process. The total running time of an article was shortened to 40-45 days. Within seven days of its acceptance, the manuscript will be reprinted. The newspaper has made a lot of money and gained a lot of credibility this year.

I'd prefer to take this chance to convey all of the journal members for his or her help in finalizing the revealed articles and for serving to form it a winning business firm. At last, I simply need to mention that those who have an interest in publishing their article in our journal, they'll either submit it on-line through given link: <https://www.longdom.org/submission/medical-surgical-pathology.html> or submit it as an email attachment to given mail ID: jmsp@longdomjournal.org
