

New techniques for plant protection

Elias Yamani tiwari

The 14th International Conference on [Agriculture](#) and [Plant Science](#) hosted by conference series with the theme Plants in a Changing Environment, was successfully executed during June 22-23, 2020 Sydney, Australia. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of [Plant Science](#) and [Bio Technology](#).

The conference commenced with the presence of worthy Keynote forum and among the notable ones, few are listed below.

- Identification of candidate genes involved in Arabidopsis responses to abiotic and biotic stresses using a transcriptomic approach (Synan F Abu Qamar). United Arab Emirates University, UAE
 - Do riparian species like nitrogen (Eugenija Kupcinskiene Habil) Vytauto Didžiojo universitetas, Lithuania
- Conference series is organizing 14th International Conference on Agriculture and Plant Science. The conference is going to cover the entire field related to [Plant Science](#) and Molecular

Biology, latest research and findings. The Conference will provide a platform where research scholars and students will be able to gain knowledge about new, innovative research and findings from the eminent Scientist, Researchers and Professors.

The conference highlights of Agriculture and Plant Science 2020 are as follows:

| Agriculture Engineering| Agriculture & Food Security| Agriculture: Current Trends and Future| Agriculture in Changing Environment| Post-Harvest Technology| Horticulture Therapy |Pesticides and Fertilizers| Plant Science| Agricultural Production Systems & Agribusiness| Agriculture and Environment| Food Science| Crop protection & Entomology | Soil Science & Water Management| Agricultural Biotechnology
