Retraction

The article entitled "Early prediction for over two years efficacy of the first biologic agent for polyarticular juvenile idiopathic arthritis: A multi-institutional study in Japan" by Kubota et al. (2017) which was published in the Journal on July 7, 2017 has been retracted because of author's misconduct. The author misinterpreted the Rheumatology: Current Research Journal in submitting the article. According to the request of the corresponding author, Dr. Kubota (E-mail dated: 04 July 2017), the article has been retracted from the journal. The authors and Editorial office deeply regret any inconvenience this publication has caused for readers.
