

**Scientific production in Neuroophthalmology**

Anil Batta

Department of Medical Biochemistry, Govt. Medical college, Amritsar

**Abstract:**

The study aimed to measure the scientific production in Ophthalmology and Vision (O&V) in India over a period of 10 years (1995-2004), in order to find out temporal evolution and variations in this field of research. Medline was used to retrieve records on O&V research literature. The search strategy included keywords, country in the affiliation field and publication date. Data were extracted from each citation and recorded in a spreadsheet. Subsequent analysis focused on type and main topic of publication, journals where articles had been published, and evolution of research done on animals and humans.

**Biography:**

**Prof. Dr. Anil Batta** is presently professor & Head with senior consultant in Govt. Medical College, Amritsar. He did his M.B.B.S. and M.D. in Medical Biochemistry from Govt. Medical College, Patiala in 1984 and 1991, respectively. His research interest is mainly in clinical application especially cancer and drug de-addiction. He has supervised more than 25 M.D., M.Sc. and Doctorate researches and published more than 130 international research papers. Research. He has been deputed member Editorial Board of numerous International & National Medical Journals of Biochemistry
