

## Studies on the Medical Education, Health Sciences and Patient Care to Identify Diseases and Enable Preventive Care for Better Health

Noel Simmons

We are very happy to announce that “Medical Education, Health Sciences and Patient Care” which is going to be held in Athens, Greece in the month of July 01-02, 2020. The Conference works under the Theme;

[Medical education](#) is an education associated to the practice of being a medical practitioner; either the initial training to become a physician. Medical education and training differs considerably across the world. Various training methodologies have been utilized in medical education, which is an active area of educational research. Medical education is also the subject-didactic academic arena of educating medical doctors at all levels, applying theories of pedagogy specifically in the context of medical education. Medical Conferences of the Conference Series LLC Ltd., serve as a platform to bring together all the researchers working in the field to develop an area of scientific study that will continue to expand into the future.

[Healthcare](#) is the improvement of health through the prevention, diagnosis, treatment, recovery, or cure of disease, illness, injury, and other physical and mental deficiencies in people. Health care is delivered by health professionals in related health fields. Physician associates and Physicians are a part of these health professionals. Dentistry, occupational therapy, physical therapy, pharmacy, midwifery, [nursing](#), medicine, optometry, audiology, [psychology](#) and other health professions are all part of health care. It includes work completed in providing primary care, secondary care, and tertiary care, as well as in public health.

In 2019, Medical Conferences are primarily focused on important topics such as Healthcare Internal Medicine, Medicinal Chemistry, Alternative Medicine, Surgery, Pharmaceutical Sciences, Cancer Science, Neuroscience, Regenerative Medicine, Reproductive Health, Nursing, Immunology, Infection, Nutrition, Clinical Research, Medical Education, Medical Innovations, Preventive Medicine and [Public Health](#), Medicine and Pediatrics Management & Prevention.

The global healthcare market reached a value of closely \$8,452 billion in 2018, having grown-up at a compound annual growth rate (CAGR) of 7.3% since 2014, and is expected to grow at a CAGR of 8.9% to nearly.

The healthcare market is segmented by type into healthcare services, pharmaceutical drugs, medical equipment, biologics, and veterinary healthcare. Healthcare services were the major segment of the healthcare market, accounting for 79.4% of the total in 2018. It was followed by pharmaceutical drugs, medical equipment and the other segments.

The fastest increasing regions in the healthcare market will be the Asia Pacific and Africa, where growth will be at CAGRs of 13.4% and 13.1% respectively. These will be followed by the Middle East and South America where the markets are expected to grow at CAGRs of 12.8% and 10.7% respectively.

The Conference Series Medical Conferences embrace Research Scholars, Academic Professors, and Surgeons who endeavor to disseminate their research experience to escalate the forthcoming research ideas. Conference Series LLC Ltd. is an open resource platform that conducts 3000+ global events including international conferences, workshops, symposia, trade shows, exhibitions & science congresses in all the major scientific disciplines, including clinical, medical, pharmaceutical, engineering, technology, business management & life sciences across America, Europe, The Middle East, and Asia Pacific.
