Keywords: Methodical brilliance; Additional stringent; Clinical fields; Metabolism

INTRODUCTION

Being a reputable editor of Journal of Clinical and Experimental cardiology, I am very willing to present the Volume 11, Issue 11 of our journal. Our Journal was on-going in 2010 and has finished in publishing other than 70 issues with more than 10 special issues and more than 800 articles. Our journal supposed to release 12 issues per year and beside with 5 special issues. Our JCEC journal concentration on provided that utmost all-inclusive and consistent facts in unconventional parts of cardiology. I am happy to announce that, all issues of the 11th volume was published online well within the stage and the print issues were also conveyed out and transmitted within 30 days of publishing the issue online during the year of 2020. Regular article opinions are accumulative and at minimum 30 opinions are noted for the paper on an ordinary. We also providing the audience metrics on a monthly basis on our journal page and also given that the citation report of our previously printed paper. JCEC purposes on philosophies of methodical brilliance, journal ethics and limpidity. It makes mediatory that each paper is yield to only done the online document submission and review scheme. Our journal editorial board members who are our expert figures have assumed procedures linked to journal morals and conflict of benefits. An entire of 50 examination researchers from entire world reviewed the 15 articles printed in

volume 11. Regular publication pause time of an paper was additional condensed to 2-3 weeks. The editorial members complete the review procedure even additional stringent. The corresponding associate editor allotted seven eminent specialists from all over the world and abroad as reviewers. The review and revision procedure take 14 days. The conclusion of finishing receiving was occupied on 14th day afterward original proposal.

All articles will be printed in journal website 21st day after proposal. The editorial team announces that there was no competing interest. This paper tracked routine peer review procedure and its publication is completely based on value. It has each time been the rule of the Editorial Board of the Journal of Clinical and Experimental Cardiology to receive articles on the dubious between cardiology and clinical fields of heart research. All printed papers of this journal are encompassed in the indexing and abstracting reporting of Index Copernicus, Google Scholar, Sherpa Romeo, Academic Journals Database, Open J Gate, Genamics Journal Seek, Academic Keys, JournalTOCs, CiteFactor, Scimago, Ulrich's Periodicals Directory, Electronic Journals Library, RefSeek, Hamdard University, EBSCO A-Z, OCLC- WorldCat, SWB online catalog, Virtual Library of Biology (vifabio), Publons, MIAR, University Grants Commission, eneva Foundation for Medical Education and Research, etc. Association with Longdom publication group has enlarged Readership Metrics (By Google Analytics) of the Journal which can be retrieved at Google Analytics Metrics. According to the Google Analytics, more than 6214 readers are go to to our journal websites for submitting documents, to browse the modern examination published on cardiology and metabolism and to mention the published contented for hypothesizing their research study, originating investigation theories, case reports and confirming their contributions. Unwanted to say, any papers that you requirement to submit, one or the other independently or collaboratively, are much respected and will make a considerable involvement to the initial growth and achievement of the journal. Greatest wishes and acknowledge you in advance for your involvement to the Journal of Clinical and Experimental Cardiology.
