

UTILISING THE LATEST DEVELOPMENTS IN MASS SPECTROMETRY AND CHROMATOGRAPHY

Medicharla V Jagannadham

Centre for Cellular & Molecular Biology, Hyderabad, Telangana, E-mail: jagan@ccmb.res.in

Conference Series LLC takes pleasure in announcing the 9th International Conference on [Mass Spectrometry and Chromatography](#) during May 25-26, 2020 at Barcelona, Spain with a focus on **Utilising The Latest Developments In Mass Spectrometry and Chromatography**.

[Mass Spectrometry 2020](#) provides an opportunity for all stakeholders working in this field to showcase their achievements. It provides the opportunity not only to principal investigator but also the young researcher and the upcoming researchers specially co-authors who are under the study of the environment changes and updating themselves towards Global issues. Therefore, [Mass Spectrometry 2020](#) expected to attract renowned speakers along with the coauthors, principal investigators, experts and researchers from both academia and health care industry to join together. Mass Spectrometry 2020 this year targets on the coauthors that are recognize at the beginning of each communication as many conference program forgets to provide the identity to them.

Expert Level (Scientific Service Achievement Award)

The award to the experts who have made outstanding contributions to advancing in Mass Spectrometry and Chromatography. It is the most prestigious award of the whole conference and is tagged as scientific service Achievement award. The eligibility criteria for achieving this award is that one should have minimum of 20+ years of experience in the relative field in public or private sector. The receiver of this award should have a dedicated fascination and should take initiative in researching the recent trends and developments towards the related subjects. You can nominate deserving of the award through online.

Professional Level (The Research Contribution Award)

The Award for professional or academic research activity acquired in Analytical Chemistry research field in the public or private sector for experts having research knowledge at 10+ years in the field of Mass Spectrometry with most relevant accomplishments. Part-time research

experience would be counted as pro-rata. It is calculated starting from the date when you obtained the (first) degree entitling you to embark on a doctorate (either in the country in which the degree was obtained or in the country in which the researcher is recruited), even if a doctorate was never started or envisaged. You can nominate deserving of the award through online.

Scholar Level (The Upcoming Researcher Award)

The conference offers Scholar Level Award for the upcoming scientists, researchers and experts having 10+ years research experience in the field of Mass Spectrometry. Our conference would like to provide best platform to expand your network by sharing your research knowledge at stage. Presentation includes 25-30 minutes of oral talk on the scientific research topics based on the theme of the conference along with 5 minutes panel discussions. You can nominate deserving of the award through online.

Women Scientist (The Women of Science Award)

Our Conference provides a unique platform for women scientists for presenting latest research projects with an in-depth analysis. We cordially invite women scholars and scientists from Universities/ Industries to who have 10+ years of research experience to join the forum. We are happy to encourage our women scientist's participants through research awards and provide assistance for women scholars in career development and research guidance through our collaborations. Women Scientist can nominate deserving of the award through online.

Outstanding speaker in Mass spectrometry congress 2020

This award is recognizing for individual who will present their projects, strategies, and schemes that have been implemented to improve long-term excellence in Mass Spectrometry. You can nominate deserving of the award through online

Best Keynote Speaker in Mass spectrometry congress 2020

This award is recognized for best Keynote speaker who will present their projects, strategies, and schemes that have been implemented to improve long-term excellence in Mass Spectrometry and Chromatography. If you were confirmed as keynote presenter from the program manager, you can nominate someone deserving of the award through online

Best Poster Presentation in Mass spectrometry congress 2020

Student Poster Competition is organized at Conference, to encourage students and recent graduates to present their original research. All accepted abstracts will be presented at the poster sessions during the conference. Conference Series aims at setting a platform for all the budding scientists and researchers to present their real-time work and share their views and aspects related to the theme of the conference. You can nominate someone deserving of the award through online

Outstanding Masters/Ph.D./Post Doctorate thesis work Presentation in Mass spectrometry congress 2020

This award is recognizing for Masters/Ph.D./Post Doctorate thesis work Presentation who will present their projects and thesis that have been implemented to improve long-term excellence in the field of Mass Spectrometry and Chromatography. You can nominate deserving of the award through online. You can nominate someone deserving of the award through online.

Benefits of Award Contents

Brand recognition and free PR – Being shortlisted as an award contender gives your organization free publicity from the awards organizer as well as the other nominees and possibly even the judges. And if you win, the publicity is even more far-reaching and impactful.

Instant credibility – Winning an award opens numerous doors and gives you instant credibility with potential customers. Let's face it; we all look at reviews before we make purchases. Third-party endorsements are critical, and an award shows that an outside organization with no

skin in the game thought something you have done warrants recognition. The rewards can be further amplified if you shout the results to the rafters and include any “badges” showing the win on your website, in signature files and on social media.

Increased morale – It almost goes without saying that winning an award provides intrinsic motivation and improved morale for those on the team. The nomination alone, which recognizes hard work and a job well done, is a celebration of the hours the team put into the project and can significantly—and positively—impact employee satisfaction and talent retention.

Talent attraction – When potential employees see your company recognized and your teams being celebrated, it can go a long way toward creating a new talent pipeline. According to a recent Deloitte study, millennials are looking for an opportunity to make a difference in their workplace and in the wider world. In fact, 74% of millennials believe that business has the potential to solve the challenges that concern them. That is a powerful statement. We routinely hear that talent management is one of the hardest things our member companies face. If young talent sees your organization addressing and tackling big issues, your problem with talent attraction and retention could be a thing of the past.

Easy benchmarking – Imagine being exposed to dozens of projects simultaneously tackling similar—and different—issues and challenges. Time and again, we've seen SIG members have aha moments by listening to someone in another industry present thought leadership and then transform their own businesses by implementing those takeaway ideas. By nature of the event, awards programs provide you with quick access to the best of the best, with greater potential for those insightful moments!

Differentiation and leadership – At the end of the day, aren't all companies—whether on the buy-side or sell-side—seeking leadership in their industry? An industry award allows you to differentiate yourself from your competition and showcase your leadership. It can open up new doors and plant your organization at the top of the pedestal (quite literally).
