

31st International Conference & Exhibition on Pharmaceutics and Novel Drug Delivery System

Dr. Abbasian Nima

Pharmaceutics is the discipline of pharmacy that deals with the process of turning a new chemical entity (NCE) or old drugs into a medication to be used safely and effectively by patients. It is also called the science of dosage form design. There are many chemicals with pharmacological properties but need special measures to help them achieve therapeutically relevant amounts at their sites of action. Pharmaceutics helps relate the formulation of drugs to their delivery and disposition in the body. Pharmaceutics deals with the formulation of a pure drug substance into a dosage form.

Branches of pharmaceutics include: Pharmaceutical formulation, Pharmaceutical manufacturing, Dispensing pharmacy, Pharmaceutical technology, Physical pharmacy, Pharmaceutical jurisprudence. Most drugs today are administered as parts of a dosage form. The clinical performance of drugs depends on their form of presentation to the patient

Expert Level (Scientific Service Achievement Award)

The purpose of Scientific Service Achievement Award awards is to recognize outstanding research achievements in the area of Pharmaceutics. The applicants should have minimum of 20+ years of experience in the relative field in public or private sector. The applicants are expected to enhance the quality of research should take lead in researching the current trends and developments towards the related subjects. The applicants can be nominated through online.

Professional Level (The Research Contribution Award)

The Research Contribution Award is for highly experienced professional (10+ years) who has made significant discoveries, made important advances in his or her chosen career path in the area of Pharmaceutics in the public or private sector. Part-time research experience would be counted as pro-rata. It is calculated starting from the date when you obtained the (first) degree entitling you to embark on a doctorate (either in the country in which the degree was obtained or in the country in which the researcher is recruited), even if a doctorate was never started or envisaged. The applicants can be nominated through online.

The Pharmaceutica 2021 is an event that aims to explore the Scientific and Industrial Advancements in Pharma Techniques at Rome, Italy on March 11-12, 2020. The conference will serve as a platform to bring together leading scientists with different pharmacists, chemists, Drug Specialist etc. Pharmaceutica 2020 Conference will discuss on the topics such as Bio-Pharmaceutics, Pharmaceutical Chemistry, Drug Targeting and Design, Pharmacokinetics and Pharmacodynamics in Drugs, Pharmaceutical Formulation, Pharmaceutical Manufacturing, Pharmaceutical Nanotechnology, Nano particulate Drug Delivery Systems, Novel Drug Delivery Systems, Nanomedicine and Biomedical Applications.

Pharmaceutica Conference 2020 supported by the organizing committee network of renowned scientific and professional expert such as Dr. Pawan Saharan, CEO Biomix Network Inc, USA provided a platform for collaboration among colleagues, vendors, and academia to reveal new innovations, solutions, ideas, and emerging technologies in Environmental Science provided a platform for collaboration among colleagues, vendors, and academia to reveal new innovations, solutions, ideas, and emerging technologies in Pharmaceutics and Novel Drug Delivery System.

The GDP is projected to rise by 2.5 percent in 2019, 1.9 percent in 2020 and 1.8 percent in 2021. The Pharma industry will be source of strength, with growth of 2.5 percent in 2019 and 3.0 percent in 2020. In fact, Pharma industry growth will exceed that of the US economy through 2024.

Pharmaceutica 2020 Conferences going to be held during January, 2020 to December, 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburgh.... And Many More.....!!!
