

4th Global Congress on Bacteriology and Infectious Diseases, September 28-29, 2020 | Webinar

Conference Series

Welcome to the Infectious 2020 Webinar

With the amalgamation of peerless speakers of **Infectious 2020** is privileged to announce its “**4th Global Congress on Bacteriology and Infectious Diseases**” which will be a webinar, held on **September 28-29, 2020**. We cordially welcome all the eminent researchers, students and delegates to take part in this upcoming Infectious Diseases Congress to witness invaluable scientific discussions and contribute to the future innovations in the field of Bacteriology and infectious diseases.

Infectious 2020 webinar will focus on the latest and exciting innovations in all areas of Bacteriology and infectious research which offers a unique opportunity for investigators across the globe to meet, network, and perceive new scientific innovations. This year’s annual congress highlights the theme “Disseminating the New Trends in Bacteriology” which reflects the innovative progress in Bacteriology and infectious research. The two days conference includes workshops, symposiums, special keynote sessions conducted by eminent and renowned speakers who excel in the field of Bacteriology which include: immunology & Antibiotics of infectious Diseases, Clinical Research and Case Study, Infectious Diseases & Agents, Infection Prevention and Control, Bacteria & Fungal Infectious Diseases, Pediatric Infectious Diseases, Neglected Tropical Diseases, Hospital infections and Epidemiology, Treatment Techniques for Infectious Diseases, Neurological Infectious Diseases, Global Trends in Emerging Infectious Diseases, Diabetes associated diseases, Plants Diseases and Fungal Infection Control, Infectious Diseases market and Business analysis.

Our conference can review the major event in developing, upgrading and teaching Bacteriology, Infectious Diseases, virology, Immunology, reproduction and Metabolic Syndromes. Our Event strongly initiated by the possibilities offered in the field by Bacteriology and infectious diseases and by the progress taking place in clinical biochemistry and experimental pharmacology, which can be reviewed by our World Congress. In the same way, the development leading in the field of clinical trials, and large meta-analysis will lead us to understand the possibilities, limits, risks, and advantages of our therapies and diagnostic approaches taking place in the

field of Bacteriology and infectious diseases.

This conference is the best platform for global networking and scientific interactions, which will result in a healthy society with a goal of disease-free world.

We have come up with an idea of honouring the presenters for their best lectures at the conference with the following:

- Best Keynote Speaker
- Best Speaker
- Best Masters/Ph.D./Postdoc Thesis work presentation
- Best Poster Award

The supporting journals include:

- Journal of Clinical Immunology and Infectious Diseases
- Journal of Infectious Diseases & Preventive Medicine
- Journal of immunology
- Journal of Pathology and Diseases Biology
- Journal of Bacteriology and infectious Diseases
