4th International Conference on Mass Spectrometry

Grace Fernandez

Organized on 20th & 21st of May, 2019, the 3rd International Conference on Mass Spectrometry, Proteomics and Polymer Chemistry has been a huge success at Rome, Italy. The conference embarked with the gracious presence of Editorial Board Members of supported Allied Academies Journals, Science Enthusiasts, Researchers, Doctors, Young Researchers and Innovation Communities representing more than 10 countries, which made this conference wonderful and remarkable.

The Theme of the conference being: 'Recent Technologies, Applications and Strategies in Mass Spectrometry and Proteomics' including the below following sessions:

• Fundamentals in Mass Spectrometry
• Mass Spectrometry in Pharmaceutical Analysis
• Applications of Mass Spectrometry
• New Approaches in Mass Spectrometry
• Spectroscopy
• Ionization Techniques
• Analytical Chemistry
• Chromatographic Techniques
• High Performance Liquid Chromatography (HPLC)
• Mass Spectrometry of Biomolecules
• Mass Spectrometry In forensic Science
• Mass Spectrometry in Drug Discovery and Development
• Future Developments in Mass Spectrometry
• Protein Mass Spectrometry
• Proteomics
• Mass Spectrometry in Proteome Research
• Clinical Proteomics
• NMR Spectroscopy
• Gas Chromatography - Mass Spectrometry
• Spectroscopy Tools in Nano Technology
• Mass spectrometry Imaging

Mass Spectrometry Congress 2019 was Moderated by Silvia Mosca (CNR – IIA Italian National Research Council - Institute for Atmospheric Pollution Research, Italy) on both Day-1 & Day-2 of the conference.

We will forever stay in debt to our Organizing Committee Members for their valuable suggestions regarding the conference.

• Magnus S. Magnusson - University of Iceland, Iceland
• Yuichi Negishi - Tokyo University of Science, Japan

• Anupam Chanda - Indian Institute of Packaging, India

The conference went on through many Scientific Sessions and Plenary Lectures, out of which the following few were highlighted as Keynote Presentations and Special Sessions:

• T-patterns, T-strings and self-similarity from the RNA world to Human Mass-Societies and Culture: A biomathematical continuum?: Magnus S Magnusson, University of Iceland, Iceland
• High-performance liquid chromatography mass spectrometry in the study of small metal clusters : Yuichi Negishi, Tokyo University of Science, Japan
• Packaging challenge for biosimilar products : Anupam Chanda, Indian Institute of Packaging, India
• The Shale Revolution in the United States and how it is affecting the petrochemical and polymer industry : J Keith Burdette, Polymer Alliance Zone Inc., USA
• Multivariate statistical tools for the identification of biomarkers: Application to mass spectrometry-based approaches : Elisa Robotti, University of Piemonte Orientale, Italy

Scientific sessions was Chaired by Magnus S Magnusson, University of Iceland, Iceland. Allied Academies has taken the great privilege of felicitating Mass Spectrometry Congress 2019 Organizing Committee, Keynote Speakers Plenary Speakers and Editorial Board Members who supported the successful completion of this event.

The esteemed Keynote speakers, researchers, delegates and guests shared their emerging and innovative research and their deep and vast experience through their presentations at Mass Spectrometry Congress 2019. We are glad to inform that all accepted abstracts for the conference have been published in the Journal of Chemical Technology and Applications as a special issue.

We are also grateful for the extended support of various delegate experts, company representatives and other esteemed personalities by facilitating active discussion forums and helping us build strong in our weaker arenas. We, most sincerely, thank our Organizing Committee Members for their gracious presence, guidance and support. With the unique and positive feedback from the conference, Allied Academies would like to announce the commencement of the "4th International Conference on Mass Spectrometry, Proteomics and Polymer Chemistry" scheduled to be held at Chicago, USA in the month of October 19-20, 2020.
