

## 5<sup>th</sup> International Conference on Molecular Medicine and Diagnostics

Sanele Khoza

[Molecular medicine](#) develops ways that to diagnose and treat illness by understanding the method genes, proteins, and different cellular molecules work. Molecular medicine is based on research that shows how certain genes, molecules, and [cellular functions](#) may become abnormal in diseases such as cancer. Molecular drugs may be a broad field, where physical, chemical, biological, [bioinformatics](#) and medical techniques are used to describe molecular structures and mechanisms, identify fundamental molecular and [genetic](#) errors of disease, and to develop molecular interventions to correct them. The molecular drugs perspective emphasizes cellular and molecular phenomena and interventions instead of the previous abstract and empiric concentrate on patients and their organs.

### Molecular Medicine 2020

#### Expert Level:

The award is to the experts who have made outstanding contributions to advancing in [Molecular Medicine and Diagnostics](#). It is the most prestigious award of the conference and tagged as a Scientific Service Achievement award. The eligibility criteria for achieving this award is that one should have a minimum of **20+ years of experience** in the relative field in the public or private sector. The receiver of this award should have a dedicated fascination and should take initiative in researching the recent trends and developments towards the related subjects. You can nominate deserving of the award online.

#### Professional Level:

The award for professional or academic research activity acquired in [Molecular diagnosis](#) research field in the public or private sector for experts having research knowledge at 10+ years with most relevant accomplishments. Part-time research experience would be counted as pro-rata. It is calculated from the date when you obtained the (first) degree entitling you to embark on a [doctorate](#) (either in the country in which the degree was obtained or in the country in which the researcher is recruited), even if a doctorate was never started or envisaged. You can nominate deserving of the award online.

#### Scholar Level:

The conference offers a [Scholar Level](#) award for scientists, researchers, and experts having 10+ years of research experience in the field of [Molecular Medicine](#). Our conference would like to offer the best platform to expand your network by sharing your research knowledge. Presentation includes 25-30 minutes of oral talk on the scientific research topics based on the theme of the conference along with 5 minutes panel discussions. You can nominate deserving of the award online.

#### Women Scientist:

Our conference provides a unique platform for [women scientists](#) for presenting the latest research projects with an in-depth analysis. We cordially invite women scholars and scientists from universities/industries having 10+ years of research experience to join the forum. We are happy to encourage our women scientist participants through research awards and provide assistance for women scholars in career development and research guidance through our [collaborations](#). Women scientists can nominate deserving of the award online.

#### Outstanding Speaker:

This award is recognizing individuals who will present their projects, strategies, and schemes that have been implemented to improve long-term excellence in [Molecular Diagnosis](#). You can nominate deserving of the award online.

#### Best Keynote Speaker:

The award is recognized for [Best Keynote speakers](#) who will present their projects, strategies, and schemes that have been implemented to improve long-term excellence in **Molecular Medicine and Diagnostics**. If you were confirmed as a keynote presenter by the Program Manager, you can nominate deserving of the award online.

#### Best Poster Presentation:

Students' poster competition is organized at the conference, to encourage students and recent graduates to present their original [research](#). All accepted abstracts will be presented at the poster sessions during the conference. Conference Series aims at setting a platform for all the budding scientists and researchers to present their real-time work and share their

views and aspects related to the theme of the [conference](#). You can nominate deserving of the award online.

**Outstanding Thesis:**

The award is recognizing for Masters/Ph.D./Post Doctorate [thesis](#) work presentations who will exhibit their [projects](#) and thesis that have been implemented to improve long-term excellence in the field of **Molecular Medicine and Diagnostics**. You can nominate deserving of the award online.
