Journal of Clinical and Medical Sciences is one of the forefront International periodicals publishing scholarly reviews in the field of Medical and Clinical Sciences at a quarterly frequency since its establishment in the year 2017. Journal of Clinical and Medical Sciences is a peer reviewed open access journal. Scope of the Journal encompasses the advances in fundamental and clinical studies. The Journal is internationally recognized to gather all the research updates covering wide range of aspects. The journal encourages researchers to discuss high standards of medical care by promoting good clinical practice via our Open Access platform. The journal supports wide range of medical and clinical professionals to share and discuss the significant challenging issues to improvise the health care.

Journal aims to encourage interdisciplinary discussions and contributing to the advancement of medicine, benefiting readers and authors by accelerating the dissemination of research information and providing maximum access to scholarly articles.

Peer-review is the system used to assess the quality of a manuscript before it is published. Researchers in the relevant research area assess submitted manuscripts for validity and significance to help editors determine whether the manuscript should be published in their journal.

All published articles of this journal are included in the indexing and abstracting coverage of Index Copernicus, Google Scholar, China National Knowledge Infrastructure (CNKI), Cosmos IF, Publons, Secret Search Engine Labs), Studies receiving funding from a funding organization that is included on the list of PMC and Research Funder Policies or authors having NIH grant were submitted to PubMed.

I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of Journal of Clinical and Medical Sciences for their valuable support and we look forward to bring out the Volume 4 Journal of Clinical and Medical Sciences in scheduled time.
