Editorial Note: Clinical and Experimental Ophthalmology

Ayman Ahmed*

Department of Ophthalmology, Zagazig University, Sharqia Governorate, Egypt

EDITORIAL NOTE

I am delighted to introduce Journal of Clinical and Experimental Ophthalmology from the Longdom publisher which is successfully publishing high-quality and original research works along with insightful reviews, finest short communications and excellent case reports from the past ten years. As an editor I appreciate all those who kept time and efforts in the service and in the progress of Journal of Clinical and Experimental Ophthalmology.

Indexing services

Journal of Clinical and Experimental Ophthalmology is having Index Copernicus, Google Scholar, Open J Gate, Sherpa Romeo, Genamics JournalSeek, Journal TOCs, RefSeek, Publons, EBSCO A-Z etc indexings. Moreover JCEO is having 80.45 and 101558412 as Index Copernicus value and NLM ID respectively whereas 2155-9570 as International Standard Serial Number (ISSN) and 0.65* as Journal Impact Factor.

Frequency of issues

Just like every year, Journal of Clinical and Experimental Ophthalmology has released six issues in 2019 with the frequency of an issue per two months (bimonthly issue). This year we are planning to release 7 issues per year with the qualified articles. As we received more than 100 papers from various authors globally, we have published 35 qualitative research works along with reviews and excellent case reports were submitted by doctors throughout the globe regarding the ophthalmic patients. On an average we have published 5 articles per issue.

Tracking of Papers

For easy tacking of papers for authors, reviewers and editors Journal of Clinical and Experimental Ophthalmology has recently introduced Editorial and Review tracking system. Through this tracking the manuscript submitted can be easily tracked by authors through the link and User ID along with Password at the time of submission.

Even review comments can also submitted by reviewers through this review tracking system. As we (editors) have access to all these, we will go through it and dispose the acceptance or rejection and publishing assistant will proceed further.

Social Networking

In 2019, JCEO has selected a new platform of social networking through the twitter, linkedin and whatsapp. In twitter JCEO is having a leading profile which disseminates the novel researches as well as current updates in ophthalmology along with all types of news regarding ophthalmology.

Review

On this occasion, I would like to thank each and every reviewer who are responsible for the rapid fast-track peer review process in which the review process can be done by authors within 21 days of initial submission. Our journal follows double blinded peer review process where reviewers give their decision without any bias.

Moreover I would like to thank the readers who are responsible for the development of our journal and we are very much astonished with the google analytic reports of our journal. According to the Google Analytics, more than 785 readers are visiting to our journal websites for submitting manuscripts, to browse the latest research published on diabetes and metabolism and to refer the published content for conceptualizing their research study, deriving research hypotheses, case reports and validating their contributions.

In an end not I would like to convey my best wishes and thank you in advance for your contribution to the Journal of Clinical and Experimental Ophthalmology.
