### Editorial Note

I am pleased to introduce the Brain Disorders and Therapy (BDT) keen in publishing the latest advancements and innovations in a peer reviewed scientific journal known for rapid dissemination of high-quality research. This Brain Disorders Journal with high impact factor offers an open access platform to the authors in academia and industry to publish their novel research. It serves the International Scientific Community with its standard brain research publications. The journal focuses on providing most comprehensive and reliable information in advanced areas of neurology such as disorders of the nervous system. I am pleased to announce that, all issues of the 9th volume were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2019.

Journal publishes all types of Research like, original articles, review articles, short review, case reports, case studies, case series, short communications, etc. in all areas of related to Neurology, Neuroscience & Psychology All published articles of our journal are included in the indexing and abstracting coverage of: Index Copernicus, Google Scholar, Sherpa Romeo, Open J Gate, Genamics JournalSeek, JournalTOCs, RefSeek, Hamdard University, EBSCO A-Z, OCLC- WorldCat, Publons, Geneva Foundation for Medical Education and Research.

The impact factor for the journal is Journal Impact Factor 1.02\*. Impact factor measures the quality of the Journal.

As such, the journal aspires to be vibrant, engaging and accessible, and at the same time integrative and challenging. During the calendar year of 2019, BDT received a total of 200 manuscripts, a total of 110 research scientists from all over the world reviewed the articles published in volume 9. Average publication lag time of an article was further reduced to 2-3 weeks. Average download per article is increasing and on an average there are 50 downloads per paper. All these are promising signs. We could reach this stage through the constant support of Board Members and intellectual generosity of the readers and contributors (authors and reviewers).

Association with Longdom publishing group has increased Readership Metrics (By Google Analytics) of the Journal which

can be accessed at Google Analytics Metrics. According to the Google Analytics, more than 10780 readers are visiting to our journal websites for submitting manuscripts, to browse the latest research published on diabetes and metabolism and to refer the published content for conceptualizing their research study, deriving research hypotheses, case reports and validating their contributions.

Readers from the major countries including United States, Japan, United Kingdom, India, Egypt and Nigeria visit our journal domain to learn about the ongoing research activities in this field.
