The New Year promises many exciting developments for *Cardiovascular Pharmacology: Open Access* (CPO). I am pleased to introduce Cardiovascular Pharmacology: Open Access a rapid peer reviewed Journal which provides a unique forum dedicated to scientists who can express their research on a wide array of Cardiovascular Pharmacology topics. I am pleased to announce that, all issues of volume 8 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2019.

Cardiovascular Pharmacology: Open Access is a journal that aims to publish the most reliable source of information on the discoveries and current developments as original articles, review articles, case reports, short communications, etc. in all areas of the field and make them available online to the researchers. I am delighted to mention that during the year 2019, all 6 issues of Volume 8 published online well within the time. As a supplement, CPO published conference proceedings named “Joint Event on Heart Failure, Pediatric Cardiology & Nursing Education” with 3 Keynotes from eminent speakers, 10 Scientific Tracks Abstracts and 15+ Posters & Accepted Abstracts.

On behalf of the Board of the CPO and my co-editors, I am glad to present the successful journey of the journal upon the completion of eight years milestone of establishment in 2019. During the year 2019, many articles were rejected in the preliminary screening due to plagiarism or being out of the format and then accepted articles were subjected to the peer-review process and finally 10 were accepted & published in journal. Globally, articles have been accessed by the research scientists and also cited.

Popularity of the CPO can be ascertained by the reader’s interest, curiosity and support, which is estimated from the response we have been receiving from diverse geographical regions all across the world. This is further ratified by the Google analytics metrics that analyses and releases our reader’s profile from time to time and the total numbers of page views are 9496. Moreover, the number of citations per year continues its robust rise as articles enjoy increasingly broad dissemination. The journal is now getting indexed in different databases and indexed in journal. Globally, articles have been accessed by the research scientists and also cited.

Authors are cordially invited to submit their current research activities and outcomes in the form of any article type of science communication such as original research, review, expert opinion, commentary, short note communication to our Journal. Manuscripts can be submitted online via Editorial Tracking System or as an E-mail attachment to the Editorial Office at editor@longdom.org. CPO is using Online Review and Editorial Tracking Systems for quality review process and the authors can submit manuscripts and track their progress.

I take this opportunity to acknowledge the contribution of editors (Dr. Luisa Mestroni and Catherine Demers) and Reviewers (Sumith Panicker, Mohammad Shahid, Rajasekharreddy Pala) during the final editing of articles published and the support rendered by the editorial assistant, in bringing out issues of CPO in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of CPO, the office bearers for their support in bringing out yet another volume of CPO and look forward to their unrelenting support to bring out the Volume 9 of CPO in scheduled time.
