Editorial Note

The New Year promises many exciting developments [Reconstructive Surgery & Anaplastology](#). Popularity of the ACR can be ascertained by the reader's interest, curiosity and support, which is estimated from the response we have been receiving from diverse geographical regions all across the world. According to the [Google Analytics](#), more than 3493 readers are visiting to our journal websites for submitting manuscripts, to browse the latest research published on Biology, Agriculture and Health Sciences include, Zoology and Botany Biochemistry, Biotechnology and Bioinformatics, Ecologyrosthodontics, Prosthesis, Bariatric surgery, Plastic surgery, Augmentation, Otolaryngology, Oral and maxillofacial surgery, Breast, Reconstruction, Vaginoplasty, Tissue Engineering, Mandibular fracture, Rhinoplasty and cosmetology etc. and to refer the published content for conceptualizing their research study, deriving research hypotheses, case reports and validating their contributions.

[Reconstructive Surgery & Anaplastology](#) is one of the best open access journals that aims to publish the most complete and reliable source of information on the discoveries and current developments in the form of original articles, review articles, case reports, short communications, etc. in all areas of Vaginoplasty and Liposuction, accepts articles in a variety of formats including feature articles like short commentaries, review articles, research articles, responses, interesting case reports any many more. Examples of content areas which are not only limited to Liposuction, Flapbody, Contouring, Reconstructive Surgery, Tissue Engineering, Mandibular fracture, Rhinoplasty and cosmetology etc. and making them freely available worldwide.

I am delighted to mention that during the year 2019, issue of volume 8 were published online well within the time. Congratulations to all of our Editorial Board members, reviewers, authors and readers for achieving this distinction. ACR received a total of 2 papers, out of which none of the articles were rejected in the preliminary screening due to plagiarism or being out of the format. Around all the articles were subjected to the peer-review process, accepted & published in journal.

Authors are cordially invited to submit their current research activities and outcomes in the form of any article type of science communication such as original research, review, expert opinion, commentary, short note communication to our Journal. Manuscripts can be submitted online via Editorial Tracking System or as an E-mail attachment to the Editorial Office at submissions@longdom.org. ACR is using Online Review and [Editorial Tracking System](#) for quality review process and the authors can submit manuscripts and track their progress.

I take this opportunity to acknowledge the contribution of Ms. Jessica Bee during the final editing of articles published and the support rendered by the editorial assistant, Ms. Scott Lasly in bringing out issues of ACR in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of ACR, the office bearers and staff for their support in bringing out yet another volume of ACR and look forward to their unrelenting support to bring out the Volume 9: Issue 2 of ACR in scheduled time.
