

Glycobiology & Enzymology 2020 Report

2nd International Conference on Glycobiology & Enzymology is delighted to invite all the participants across the globe to the prestigious event, which is going to be held during April 23-24, 2021 at Tokyo, Japan. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The conference revolves around the theme - "Exemplifying the Prominence of Glycobiology & Enzymology".

Scientific Sessions of Glycobiology & Enzymology includes Glycobiology: It's Role in Human Health, Synthesis and Biological Role of Glycans, Glycans in Diseases and Therapeutics, Glycans in Vaccine Development, Glycans in Drug Design, Enzyme discovery, Enzymology & Biochemistry, Enzymology in Genetics, Clinical Enzymology, Enzymology in Drug Discovery. The conference was initiated with the Honourable presence of the Key-note forum. The list includes:

Dr. Katarzyna Kotwica-Mojzych, Medical University of Lublin, Poland

Scientific Sessions :

Glycobiology: Its Role in Human Health

Synthesis and Biological Role of Glycans

Glycans in Diseases and Therapeutics

Glycans in Vaccine Development

Glycans in Drug Design

Enzyme discovery

Enzymes in Food Technology

Enzymology in Genetics

Clinical Enzymology

Enzymology in Drug Discovery

With the grand success of Glycobiology 2020, Meetings International is proud to announce the 2nd International Conference on Glycobiology & Enzymology " to be held during April 23-24, 2021 at Tokyo, Japan.
