

Nutrition, Nutritional Science and Food Chemistry is the major industry for the development of health, basic need of daily life, create employment, generate income, stronger economy, reducing financial crises, global Poverty and hunger in the developing countries of the world particularly in south Asia.

Muhammad Usman

Former Director General of Agricultural Research System, Government of Pakistan

Abstract

The aim of presentation consist of Nutritional Science, Food chemistry, health, life, employment, income, crises, global poverty and hunger were studied and reported that Nutritional Science and Food Chemistry is the major industry for the development of health, basic need of daily life, create employment, generate income, stronger economy, reducing financial crises, global Poverty and hunger in the developing countries of the world particularly in south Asia. The study reported that nutritional science is the study of nutrition that interprets the interaction of nutrients and other substances in food in relation to maintenance, growth, reproduction, health and disease of an organism. In other words nutrition is the utilization of food to grow, repair and maintain our bodies, getting the right amount of nutrients from healthy foods in the right combinations and also making smart choices about the food you eat, proper nutrition helps you develop and maintain good health. As per study, food is the basic need of our life and the food science deals with the different industries of production, processing, distribution, preparation, evaluation.

Biography:

Mr. Muhammad Usman, Former Director General of Agricultural Research System, Government of Pakistan who retired from service after a spotless career of about 32 years with senior level experience on research and development of integrated agricultural production, industries, agriculture & food chemistry and bioenergy on a sustainable way.

Mr. Usman is basically an agricultural scientist with specialization of agricultural, food and biochemistry working on the yield and quality of various products and published several research papers.

[3rd European Food Chemistry and Drug safety Congress; Webinar- August 21-22, 2020.](#)
