Market Analysis of 6th World Congress on Anesthesia and Critical Care scheduled to be held at October 21-22, 2020 at Paris, France

[Surgery Conferences Committee](#) is glad to announce our upcoming “6th World Congress on Anesthesia and Critical Care” during October 21-22, 2020 at Paris, France.

[Anesthesia 2020](#) provides you with valuable accretion for your work. At Anesthesia 2020, Attendees will pick up the chance to learn and get advancements about the current information in [Anesthesiology](#). Explore the trends regarding Anesthesia, Critical Care and discover the results regarding your greatest challenges and share the information back to your physicians for a more informative discussion. This is an international meeting where Anesthesiologists, [Pediatric Anesthesiologists](#), Veterinary Anesthesiologists and all the medical professionals can meet their colleagues from across the globe in building their network, to achieve leadership and management skills, to develop analytical and research skills.

Why Attend?

“6th World Congress on Anesthesia and Critical Care” is the leading Conferences of the World united by recognized academician in the field of Anesthesiology, critical care researchers, educators, health professionals, professors, academic scientists, industry researchers from across the globe which is an exclusive platform for sharing the knowledge and information and B2B gatherings with industrialists and potential clients to make a sprinkle and mark acknowledgment at this occasion. Latest improvements in Advanced Anesthetic Care and Critical Care can be discussed and it will give an exceptional opportunity to the individuals by

- Keynote gatherings by Prominent Professors, Doctors
- Poster/Oral presentations by Young Researcher
- Novel procedures to profit your research
- Addresses from prestigious speakers
- Excellent platform for Global business and Networking openings
- Meet the editors of refereed journals, Societies and Association applicants over the Globe

The anesthesia drugs market was valued at USD 4,512.11 million in 2018, and is estimated to be valued at USD 5,314.66 million in 2024, while witnessing a CAGR of 4.20% over the forecast period of 2019-2024. The key factors propelling the growth of this market are the increasing number of surgeries and new approvals of anesthetic drugs.

There are wide ranges of surgeries based on the length of stay for surgeries. These include elective surgery and emergency surgery. Based on procedures, there are wide ranges of surgeries, where open surgery is most common. Others include keyhole surgery, laparoscopic surgery, microsurgery, and cosmetic surgery. In recent years, several articles have reported a significant rise in the number of day care procedures (ambulatory surgery), and diagnostic and therapeutic services.

This is primarily due to the increased dependence on advances made in anesthesia, surgical, and medical technologies.

Furthermore, the rise in surgeries is attributed to the increasing risk of various accidents, sports injuries, and diseases, globally. According to the Center of Disease Control and Prevention (CDC), more than 51 million inpatient surgeries and 53 million outpatient surgeries were performed in the United States in 2017. In the European region, in England, nearly 4.7 million patients were admitted for surgeries in 2014, as per the Royal College of Surgeons. This indicates the rising number of surgeries, which ultimately results into the rising demand for the anesthesia drugs and propels the growth of the anesthesia drugs market.

Anesthesia Drugs Market: Revenue Share (%), By General Anesthesia Drugs, Global, 2018

CAGR of 4.20% over the forecast period.
