

Accelerating Innovative Schemes in Nursing Education and Research

Roganovic Jelena

[Nursing Education and Research 2020](#) which is scheduled to take place in Munich, Germany during October 14-15, 2020 takes the pleasure to invite all the participants, speakers, students, delegates, sponsors, exhibitors from all over the globe to attend our conference.

These events cover wide range of critically necessary sessions that deals with the current analysis development within the sector of Nursing Education, Nursing research, health care and Hospital management and, regarding the new treatment ways that are researched by scientists to treat varied diseases in easier manner. These conferences act as a best platform for attendees to be told regarding the recent trends in health care. Nurse researchers even have self-addressed necessary queries in clinical geriatric nursing: the maintenance of health, prevention of illness and incapacity, and care of the sick recent. This analysis is of nice importance as life increases; info from the 1980 census show that 1.5 percent of persons age 65-74 were in nursing homes; the proportion rises to 6.6 percent for persons 75-84, and 22.7 percent for persons 85 and over. This analysis has vital implications for the effectiveness and worth of kid medical care. The average price of initial kid medical care is derived to exceed \$13,000 (Institute of medication, 1985, p. 229), and nearly seven percent of newborns within the U.S. are in danger due to low birth weight.

Our Advanced Nursing Research conferences mainly focus on topics such as: [Nursing Education and Research](#), [Geriatric Nursing](#), [Clinical Nursing](#), [Travel Nursing](#), [Surgical Nursing](#), [Cardiovascular Nursing](#), [Neonatal and Paediatric Nursing](#), [Oncology Nursing](#), [Telenursing](#), [Patient Safety and Health Care](#), [Women's Health Nursing](#).

These events conjointly give CME, CPD credits. CME refers to a selected type of continued education (CE) that helps those within the medical field maintain ability and find out about new and developing areas of their field. Through continued Medical Education and continued skilled Development, health care professionals maintain, develop and make sure that they keep their capability to apply safely, effectively and lawfully among their evolving scope of apply.
