MARKET GROWTH AND ANALYSIS IN HEALTHCARE **INDUSTRY**

Vaccination plays a crucial role to maintain sustainable health of people across different countries; hence, they are employed in various regional disease-prevention strategies. The demand for vaccinations has increased over the last few years, owing to the increase in incidence of both viral and bacterial infectious diseases. Vaccinations are essentially administered to people of different age groups, which strengthen their immune system throughout lifetime and offers protection against different types of infectious diseases.

Global Vaccines Market was valued at \$31,216 million in 2016, and is expected to reach \$65,148 million in 2023, and register a CAGR of 10.9%, during the forecast period, 2017- 2023. Vaccine is a biological arrangement that is controlled to deliver gained insusceptibility in patients. Organization of immunizations helps to improve the invulnerable reaction against a particular pathogen.

The global vaccines market is driven by the rise in prevalence of infectious diseases, as it is considered to be the best way to prevent such diseases. In addition,

emerging vaccines (Zika vaccines, dengue vaccines, cancer vaccines, and others), production of technologically advanced vaccines, advancements in vaccine delivery devices, and increase in immunization programs supplement the market growth. Be that as it may, longer courses of events required to deliver antibodies and high financial data sources related with the equivalent confine the market development. Moreover, high development of antibody creation in developing markets is relied upon to offer worthwhile open doors sooner rather than later.

Target Audience:

- Vaccination Practitioner
- Vaccination Professionals
- Renowned Vaccination personalities
- Doctors, professors
- health care professionals
- Immunization professionals
- Students
- Nurses

• directors of association and societies

Related Companies/industries:

- GlaxoSmithKline
- Sanofi
- Pfizer
- Novavax
- Emergent BioSolutions
- CSI
- Inovio Pharmaceuticals
- Bavarian Nordic
- Mitsubishi Tanabe

Related Associations and Societies:

- European Respiratory Society
- Danish Cancer Society
- Brazilian Society of Immunizations
- European Society of Gene Therapy
- European Society for Immunodeficiency
- French Society of Immunology
