

## Latest methodology and process in Orthopaedics Rheumatology and Osteoporosis

Aditya Kumar Aggarwal

[ORTHOPEDIC CONFERENCE 2020](#) highlighting the theme “**Latest methodology and process in Orthopaedics Rheumatology and Osteoporosis**” provides a superb opportunity to share views, exchange knowledge and establish research collaborations & sponsoring.

We are sorry to inform you that due to increase in number of “Corona Virus” cases in last few days, our management decided to postpone the conference till next update. We have taken the decision forcefully and it is just a precautious step. Due to the present burning hazard Corona Virus, that has totally altered our planning and program, since some of our speakers from Asian countries like Japan, Taiwan, China, Sri Lanka, Thailand, South Korea, Malaysia and so on, because of this sole reason, have withdrawn their participation and some are facing rejection of their academic/industry permits and VISA permits from embassy’s. We will let you know the rescheduled date very soon. We do understand your concerns and commitments. Sorry for the inconvenience caused to you. Hope you will understand the situation and stand by us at this moment. Kindly co-operate with us in this regards.

This event is dedicated and devoted to [Orthopaedic Conference 2020](#) and Surgery and its advances with the augmentation of novel technologies. This event will bring back to your oral and poster presentations, young research forum, and technical workshops alongside with Keynote talks from experts and panel discussions. Orthopaedic Congress 2020 offers an incredible opportunity to form the networks in the field of [Orthopaedics](#), by providing collaborations. It allows delegates to have issues addressed on Orthopaedics, Rheumatology and Orthopaedic Surgery by recognized global experts who are up to date with the latest developments in the fields and provide information on new techniques and technologies. We honestly believe that your subscription towards the conference will go a long way in encouraging your products, brands, and company.

In today’s economic climate your business decisions are as crucial as ever. 4th Annual Conference On Orthopaedics, Rheumatology and Osteoporosis allows you to maximize some

time and marketing dollars while receiving immediate feedback on your new products and services. 4th Annual Conference On Orthopaedics, Rheumatology and Osteoporosis is organizing an impressive Scientific Exhibition/Program and anticipates the world’s leading specialists involved in.

Lots of thoughts were put together getting to make this conference a premier event. Our worldwide Editorial Board Members of [Journal of Orthopaedic Oncology](#), [Journal of Bone Research and Reports](#), [Research & Reviews: Orthopaedics](#), [International Journal of Clinical Rheumatology](#) has agreed to promote the event. Prague is outstanding city to sort out the meetings. The examination work happening within the on in the field is in a decent range when contrasted with different urban communities. Prague is the quickest developing city in Czech Republic with an astounding monetary development. A few of the College of Technology degree programs are offered at Prague Universities.

Prague is notable for having assumed a fundamental job as a main tourist place, from the incredible time of Prague through the early piece of the twentieth century. The striking point of convergence of Prague is wealthy in structural troupes, including Baroque manors and gardens, and the late nineteenth century Ringstraße fixed with excellent structure, landmarks and parks. And most admirable tourism spot. We are hoping that with your valuable presence, support and co-operation of will continue the same.

Note: Now it will happen in the month of December 07-08, 2020. Mark your dates available for the upcoming Conference; we are hoping to see you soon!

Let us meet again @ Orthopaedic Conference 2020.
