The Brookhaven National Laboratory, Utica, USA

AAC hosted the event of the Global Conference on Polymer science and Technology during June 09-10, 2020 at London, UK with the theme “Expanding and Exploring the Innovative Possibilities in Polymers”. Benevolent response and active participation were received from the Editorial Board Members of supporting International Journals as well as from the leading academic scientists, researchers, research scholars, students and leaders from the fields of Polymer science and technology who made this event successful. The conference was marked by the attendance of young and brilliant researchers, business delegates and talented student communities representing more than 18 countries, who have driven this event into the path of success. The conference highlighted through various sessions on current retroviral research. Polymer Science and Technology 2020 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various new-fangled topics related to the fields of Polymer Science and technology. The conference proceedings were carried out through various Scientific-sessions and plenary lectures. The panel discussion sessions started with the questions raised by the delegates towards the speakers had made this event much more interesting. We would like to thank our delegates from various parts of the world.
