Retraction Note:

The article entitled “*Salmalia rubra* (Buch.-Ham.) S. Dutta & P. Harvey Forma Hiteshii (Comb. nov.), New Record of a Forma from Gujarat, India”, has been accepted for publication in the Journal of Forest Reserch: Open Access considering the findings provided in the article as original results from the group of investigators (authors), which was found not having any conflict or biasness towards either publication or related matters. As the article was a research article, information provided by the author was considered as original, unpublished and the group of investigators are willing to promote their findings through this publication. Publisher took decision to make the article online solely based on the reviewer’s suggestion which considered the article but not a personal opinion of the author.

Soon after publication of the paper in the Volume 5 Issue 3, the authors would like to retract the paper for their personal reasons. Therefore, the journal publisher disowns the paper from the Volume 5 Issue 3. Hereafter the content of the paper may not available online in any of the publisher’s websites or related weblinks.

The published article subjected to retraction in any of the following cases; work requires further experimental investigation or found any flaws in the methodologies and or for personal reasons of the authors. This is a reminder that the retraction is an endless process when it is required and we feel proud to acknowledge the efforts of individuals those who are involved in peer-review and production processes.
