Prestigious Award for Young Research's at Mass Spectra 2020 - Discovering New Exploration in Mass Spectrometry field

Mass Spectrometry Conference Committee is glad to announce the "8th Global Conference on Mass Spectrometry" March 23 -24, 2020 in Osaka, Japan by the focus on the theme: "Recent Scientific Research Approaches & Development in Mass Spectrometry" Mass Spectra 2020 trends are maintaining their momentum. Mass Spectrometry Conference program delves into strategic discussions.

Mass Spectra 2020 Young Scientist Awards:

Mass Spectrometry Conference Committee planned to honor prestigious award to proficient Young researchers, scientists, and Young Investigators, and Post-Graduate students, and Post-doctoral fellows, and Trainees and Junior faculty in recognition of their magnificent contribution toward the conference theme. The Young Scientist Awards makes each and every effort in offering a strong professional development possibility for early-career academicians with the aid of meeting professionals to exchange & share their experiences on all aspects of Mass Spectrometry.

Young Research's Awards at Mass Spectra 2020 for Nomination: Young Researcher Forum - Outstanding Masters/Post Doctorate/Ph.D. thesis work Presentation, solely 25 presentations acceptable at Mass Spectra 2020 young research forum.

Benefits:

- Young Scientist Award recognition certificates & memento to the winners.
- Our conferences provide the best Platform for your research through oral presentations.
- Learn about career enhancement with all the modern-day technologies with the aid of networking.
- Young Scientists will get suitable & timely information with the aid of this Forum.
- A platform for collaboration amongst younger researchers for better development.
- Provide an opportunity for research interaction with established senior investigators across the globe in the field.

- Share the thoughts with both eminent mentors & eminent researchers.
- It is an exquisite privilege for younger researchers to learn about the research areas for increasing their research knowledge.

Eligibility:

- Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees and Junior faculty with a minimal of 5 years of research experience in the field.
- The presentation must be into scientific sessions of the conference.
- Each Young Researcher / Young Scientist can submit solely one paper (as first author or co-author).
- Age limit-Under 35yrs
- All submissions must be in English.

Mass Spectra 2020 provides the best platform to expand your network, where you can meet scientists, authorities, and CROs from around the world. It's your time to grab the opportunity to join Mass Spectra 2020 for promoting your research article and to facilitate prestigious awards in all categories. In this fame, we look forward to your contribution and astonishing dedication to make our Mass Spectra 2020 more successful.

The prize-winning papers will be regarded for publication in international journals as soon as the paper is subjected to general assessment procedures.

Criteria for Selection:

- Showcase your research through oral presentations.
- Learn about career improvement & the present-day research equipment & technologies in your field.
- This discussion board will provide pertinent & timely information to those who conduct research and those who use & gain from research.
- Develop a foundation for collaboration amongst younger researchers.
- The discussion board will furnish an opportunity for collegial interaction with other younger investigators & established senior investigators throughout the globe.
- Interact & share thoughts with both mentors and peers.
- Opportunity for younger researchers to learn about the research areas of their peers to extend their potential as interdisciplinary researchers.

- Actively distribute data & promote the advantages of education and profession matters.

Awards & Rewards:

- Showcase your research through oral presentations.
- Learn about career improvement & the modern-day research equipment & technologies in your field.
- This discussion board will provide pertinent & timely information to those who conduct research & those who use & gain from research.
- Develop a basis for collaboration amongst younger researchers.
- The discussion board will furnish a possibility for collegial interaction with different younger investigators & established senior investigators throughout the globe.
- Interact and share thoughts with both mentors and peers.
- Opportunity for younger researchers to learn about the research areas of their peers to expand their potential as interdisciplinary researchers.
- Actively distribute information & promote the advantages of education and profession matters.
