

Young Researchers Forum - Young Scientist Awards Virology Congress 2021

Rebecca S

Allied Academies perceives the endeavours and commitment of researchers, specialists, academicians, and researchers in the field of medication, science and innovation by enriching them with esteemed honours like Best academician grant, Best analyst grant alongside some different honours in various classes containing declarations and mementos.

Virology Congress 2021 is glad to announce the “2nd International Congress on Virology and Microbiology” which focuses the current innovations, researches and trends in the Microbiology and Virology. Virology Congress 2021 points to many attractive scientific sessions which relates to the field of Conference Highlights

Virology viral Classification and Evaluation of Viruses, Oncolytic Viruses, Neurovirology, Non-Communicable Viral Infectious Diseases, Pediatric Viral Infectious Diseases, Recombinant Viruses and many more. Virology Congress 2021 will be organized with the theme “Exploring the Latest Challenges to Eradicate the Infectious Diseases and Virology” on March 29-30, 2021 at Webinar.

The conference mainly focuses on the recent advancements in Evaluation of Viruses, Oncolytic Viruses, Neurovirology, Non-Communicable Viral Infectious Diseases, Pediatric Viral Infectious Diseases, Recombinant Viruses and many more.

The conference attendees & participants will get captivated with exceptional events and the specialists in various fields and get a chance to pick up information in regard to the momentum look into. It offers stage to Scientists, PhD Scholars, seeking after graduated class and understudy's agents from the field of Virology to improve their capacities in every segment of Virology Congress 2021.

Virology Congress 2021 will provide an opportunity to young researchers through the initiatives like Young Research Forum, Poster Presentation and Scientific Meetings.

All Submitted papers in Virology Congress 2021 will be published in Journal of Infectious Diseases and Medical Biology or Journal of Bacteriology and Infectious Diseases regarding the topic with Unique DOI provided by Crossref.

Virology, the study of viruses, is AN unequalled branch of life sciences. With vastly high prevalence of diseases like

contagion, hepatitis, AIDS, and STDs, the importance of medical specialty is repeatedly highlighted. The worldwide medication market is anticipated to grow over 2015-2025.

The major player's square measure expected to remain key growth drivers for medical specialty over the study quantity because of hyperbolic instances of being epidemic breakouts and large investment in analysis and Development. the worldwide medical specialty market is calculable at \$1693 million in 2017 and is calculable to grow at a CAGR of five.4% throughout the forecast amount 2018-2023.

North America is that the most important medication market semiconductor diode by the U.S., because of technological advancements like speedy, transportable medical specialty.

North America is anticipated to retain the highest market position over the forecast amount similarly.

Japan is presently a growing medical specialty market that is calculable to grow at an interesting CAGR through to 2025.

Young Scientist Awards at Virology Congress 2021:

Young Scientist awards grants are given to the analysts and exploration associations all through the world who have been credited with exceptional accomplishments and are making a huge commitment to the headway of field of Virology.

Filling in as a wellspring of motivation, the honours help raise the profile of capable people and the associations, notwithstanding the calling. A scope of examination grants is on proposal to empower qualified agents to complete explicit fundamental and clinical exploration projects – from youthful experts to more settled specialists. These honours give a driving force to investigate exercises embraced by individuals and award the recognized candidates peer acknowledgment and more prominent openness.

The application for the 2021 Young Scientist Award is now accessible @ Virology Congress 2021

Accepted abstracts will be published in the Journal of Infectious Diseases and Medical Biology with a unique DOI Number.

**Benefits:**

- Young Scientist Award recognition certificate and memento to the winners
- Our conferences provide best Platform for your research through oral presentations.
- Young Scientists will get appropriate and timely information by this Forum.
- Platform for collaboration among young researchers for better development.
- Provide an opportunity for research interaction and established senior investigators across the globe in the field of Virology.
- Share the ideas with both eminent researchers and mentors.
- It's a great privilege for young researchers to learn about the research areas for expanding their research knowledge.

Eligibility:

- Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty with a minimum of 5 years of research experience
- Presentation must be into scientific sessions of the conference.
- Each Young Researcher / Young Scientist can submit only one paper (as first author or co-author).
- Age limit- Less than 35yrs
- All submissions must be in English.

Virology Congress 2021 gives best stage to grow your organization, where you can meet researchers, specialists and CROs from around the planet. It's your chance to get the chance to join Virology Congress 2021 for advancing your examination article and to encourage renowned honour taking all things together classes.

In this fame, we look forward for your contribution and astonishing dedication to make our Virology Congress 2021 more successful.

Proposals for nominations should be sent to Rebecca S at virologycongress@alliedmeeting.com

Best Regards
