Dear Sir or Madam:

I strongly recommend the Journal, Endocrinology & Metabolic Syndrome be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing. We believe that this journal makes a strong contribution to the literature and access is required by scientists interested in the intersection between endocrinological conditions and metabolic syndrome. It will attract use of PUBMED not only from these fields but also from those with diabetological and cardiovascular disease interests.

Sincerely,
