To whom it may concern,

As a member of the editorial board of the Journal of Genetic Syndromes & Gene Therapy (JGSGT) I strongly recommend this journal to PubMed. The area covered by this journal becomes increasingly important, and the journal published excellent papers in this area deserves to be indexed in PubMed. The editorial board members and journal staff have worked very hard for the journal to establish its high professional standing and there by recommending this journal to be indexed in PubMed.

Sincerely yours,

Sincerely,

Jing Huang, PhD
